PROFILE

Self-taught web developer with hands-on experience building interactive web applications and custom UI components.
Strong background in technical troubleshooting and customer communication from tech support roles.
Currently seeking a web development internship to gain industry experience, contribute to real projects, and continue improving my skills.

EDUCATION HISTORY

Senior High School TVL-ICT

Mabalacat National Senior High School

WORK EXPERIENCE

Tech Coach – Asurion (Verizon) — June 2025 – November 2025

- Resolved technical issues across mobile, home, and connected devices
- Provided step-by-step troubleshooting to non-technical customers
- Documented technical cases clearly and accurately
- Communicated complex concepts in simple terms
- Adapted quickly to new tools, systems, and updates

Customer Service Rep- iQor (T-Mobile) October 2023 – June 2025

- Assisted customers with mobile device issues, account concerns, and service troubleshooting
- Resolved problems through step-by-step guidance and clear communication
- Documented cases accurately and followed system workflows
- Maintained service quality metrics in a fast-paced tech support environment
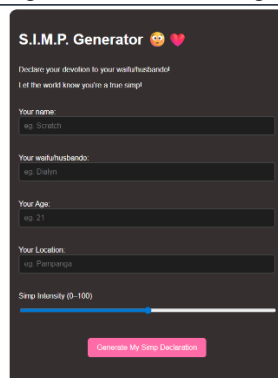

PROJECTS

Zenless Zone Zero Dialyn Description Page

– Built a character description and lore page for Dialyn from Zenless Zone Zero. Includes layout, visuals, and responsive styling.
